Pwn Challenge (15 points)

Our remote object store is finally online with array support. The kind of objects that you can create is limited for now, but our architecture is easily expandable and we expect to add many more types in future releases.

- Hint #1: Analysis of the bug. Cost: -2 points.

- Hint #2: Attack plan. Cost: -3 points.

Web Challenge (15 points)

TadaSnippets is a website that collects a series of code snippets that may be useful while programming. The user can also write new snippets for the community.
The source code is available as additional material.

You can request two hints on the solution:

- Hint #1. Vulnerability analysis. Cost: -1.5 points.

- Hint #2. Structure of the database. Cost: -3.5 points.
